## Softleaves Silicone Shoulder Straps

**Price per Unit (pair): £5.00**

### Softleaves® Silicone Shoulder Straps

Softleaves® shoulder straps are made from high quality silicone materials and are especially designed to solve problems caused by ordinary bra stapes:

- 1- Stop bra straps from sliding off the shoulder.
- 2- Equality distributes pressure over the shoulders, therefore, giving comfort as well as, leaving seamless strap lines on the skin.
- 3- Made from soft silicone making them very comfortable, durable, odorless and easy to clean.
- 4- Ideal for women who use breast enhancers , as they will help fix the bra stapes in place , and eliminate any discomfort on the shoulder that might be caused, due to the extra weight in the bra, and will leave seamless strap lines regardless of the extra breast enhancers weight added in the bra .
- 5- Undetectable under any clothing.

**Colors** : Black , Clear , **Flesh**

**Size** : one size fits all.

**Content** : one pair.
