### Softleaves® Mini X100 silicone breast enhancers

- *Small soft silicone gel pads that have a groove in the centre allowing them to bend easily and fill any gap or irregularities found in the natural breast and partly lift up the natural breasts.*

- *Do not have nipple impressions, making them suitable to be placed at any part of the bra without leaving any nipple impressions.*

- *Fit in any part of the bra, enhancing and pushing up the breasts, adding cleavage and increasing the cup size.*

- *Undetectable, as they bounce, shape, and feel natural due to the ultra-soft silicone material which is encased in a micro-thin polyurethane layer, providing the same homogenous structure as the natural breast.*

- *So discreet to enhance the natural figure in almost any bra.*

- *Easy placement, just place them in your bras, durable, water proof and warm up to the body temperature.*
